

Bayer MaterialScience

11 August 2011

Dear Valued Customer,

At Bayer MaterialScience (BMS), we believe our success as a global leader in the polycarbonate industry is based on our continuous commitment to our customers. This means, offering you the best possible products and services to meet your needs.

To this aim, we have modified our global portfolio for Polycarbonate and Polycarbonate Blends. Our goal is to ensure that you are able to benefit from our continued product development, and have access to grades featuring enhanced material properties and performance.

Based on your purchasing history with BMS, our new offer to you is as follows:

Existing Grade (all colors)	Final production date for Existing Grade	Replacement Grade
Bayblend FR2000	End of 2011	Bayblend FR3000
Bayblend FR2000 BBS052	End of 2011	Bayblend FR3000HI
Bayblend FR2010	End of 2011	Bayblend FR3010

Your BMS representative will be happy to assist you with the product change and, of course, answer any questions you may have.

Sincerely,

A handwritten signature in blue ink, appearing to read "Markus Steilemann".

Dr. Markus Steilemann
