Dear Most Valued Customer

[CYCOLOY\\* C2800-WH9D341 \(from China Nansha site\)](#)

Thank you for using SABIC INNOVATIVE PLASTICS' products.

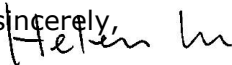

With reference to your request, SABIC INNOVATIVE PLASTICS can provide that the subjected product does not contain following substance as intentionally added components or as expected compounding process impurities [above threshold limits of 0.1%]

- Dinickel trioxide (34875-54-2)
- Bisphenol A (BPA) (80-05-7)
- Alkyl phenol
- Bis-(2,3-dibromopropylether) of Tetrabromobisphenol A
- Bis(2,3-dibromopropyl) phosphate (5412-25-9)
- Indium and Indium compounds (7440-74-6)
- Magnesium (7439-95-4)
- Platinum and Platinum Compound (7440-06-4)
- Silver and Silver Compounds (7440-22-4)
- Vinyl chloride (75-01-4)
- Carbon Monoxide (630-08-0)
- Carbon dioxide (124-38-9)
- Cyanide
- Sulfuryfluoride
- Dichloroethane (1300-21-6)
- Styrene (100-42-5)
- Toluene (108-88-3)
- Xylene (1330-20-7)

The subjected product is formulated with polycarbonate resin. Bisphenol A, CAS# 80-05-7, is a building block monomer that is chemically incorporated into the polycarbonate. Residual level (<100 ppm) might be present in the polymer matrix. While tests show that there is potential for extremely low-level migration of BPA from polycarbonate resins under certain conditions, the level of migration is minimal (below safety standards set by government agencies such as the US Food and Drug Administration and the EU Food Safety Authority).

Please note that analysis of the raw materials and/or finished goods for presence of the above mentioned substances on a routine basis is neither a part of our quality control plan, nor is a part of the SABIC-IP product specifications, and hence it shall not be construed as any warranty, expressed or implied.

We are disclosing above information, to the best of our knowledge, based upon data from our raw material manufacturers and our internal control process. We believe this information to be reasonably accurate and reliable as of this date of issuance. Should you have questions or require additional information, please contact me: [Helen.lu@SABIC-IP.com](mailto:Helen.lu@SABIC-IP.com).

Yours sincerely,  

Helen Lu
